To Whom It May Concern:

Folsom Street Associates is a Joint Venture investment firm that owns commercial property in the Bay Area.

One of our buildings at 364 Bush Street, San Francisco, needed to be seismically retrofitted in 2003 and we retained West Coast Premier Construction, Inc. to perform the work.

They could not have done a better job as they were competitive price wise, and did an outstanding job interfacing with the San Francisco Building Department. Homy Sikaroudi was delightful to work with!

Please call if you need additional information.

Very truly yours,

Gene Dale
